There are many images for each wedding that we shoot. Because of this we realise that people ordering several images will find it difficult to keep track of the numbers that they are ordering. Therefore, we no longer allow direct ordering from this website but offer you the form on the next page to make your life easier. We offer 2 print sizes as standard – 6”x 8” and 8”x 12”. (That’s 150mm x 200mm and 200mm x 300mm approximately). Prints are supplied without frames or folders as we believe that our clients will have their own tastes in frames etc. We can offer other sizes of print, framing, canvas printing, storyboards, etc. Please contact us for a quotation if you would like anything other than the standard prints.

The print sizes quoted are approximate. If the image that you are ordering does not fit that size print because its shape is different we will print it so that all of the image fits onto the paper. This may mean that there will be an additional white border on the print.

To order prints. Please view the photographs using our website or via the DVD supplied to the bride and groom. Each photograph has a number. If you would like to purchase a copy of any particular image please note the number in the left hand column of the 3. The other two columns are used to enter the number of copies of that image at each size. For example to order two 6x8 and one 8x12 copy of image PRE123 you would fill in the columns like this:

Image No	6x8	8x12
PRE123	2	1

Continue for as many images as you wish to order.

When you have selected all the images you would like please total the number of images of each size at the foot of the column. Each column’s total should be carried forward to the next column.

Finally copy the totals into the pricing table and calculate the total cost of your order. A fee of £5.00 is charged for postage and packing for all orders of £250 or less deliverable in the UK. For orders deliverable outside the UK please contact us for details of the relevant charge.

To order the prints you would like please send an email to sales@imagesofyourwedding.com listing the image numbers and the number of prints at each size of each image that you would like. We will email you back to confirm your order and give you details of how to pay. We can take payment by card over the internet only – we do not take cards by post or over the phone. Alternatively, you can send your order with a cheque for the total amount to the address above. Again, we will confirm your order back to you before we start printing it.

PLEASE make sure that you let us have your name and address!

All orders must be prepaid and will take up to 28 days to process so please be patient.
